

Greeting Cards -
A5 creased to A6
(Finished Size: 148mm x 105mm)
(Flat Size: 210mm x 148mm)

Bleed Area

The Bleed area extends 5mm out from the edge of your finished product. All images and colours that you would like to have printed to the edge should be extended into this area to avoid any white lines appearing when trimmed down. DO NOT place anything in this area that you wish to appear on the document as this will be trimmed off.

Safe Area

Please avoid putting any text beyond this 5mm margin. Any text placed beyond this point runs the risk of being trimmed off. If possible, please avoid using any thin borders in this area as there may be inconsistent thickness when your product is finished.

Trim Area

This is the finished size of your document. Anything placed outside of this line will get trimmed off during production.

To create your print-ready PDF:

File > Export

Format > Adobe PDF (print)

Adobe PDF Preset > High Quality Print

Marks & Bleed > Select crop marks & bleed marks
(if artwork has colour/image to the edge)

Select "Use document bleed settings"

Export
